 LATINÆ STUDIO, S.

POST impensam per vnde viginti ferè annos in adolescentulis erudiendis
 operam meam, cum ad Medicinæ praxin (cuius Theoricen tantum succissi-
 vis ante horis degustaram) animum intendissem, nescio quo ingenij sive du-
 ctu sive impetu, quoties ferari à re Medica licuit, ad amcenos Grammaticæ
 hortulos, Historicorum sc. ac Poëtarum lectiones, (quasi mutuas hæc duæ
 artes traderent operas) meipsum recipienti, subijci illud Fabij Oratoris de Li-
 teratura Elogium, *Plus eam habere in recessu quam in fronte promittit; & quæ
 velsola, omni studiorum genere plus habeat operis, quam ostentationis.* Cum igitur
 plures inter legendum ex varijs ijsdemque probatissimis & primæ classis au-
 thoribus, Latinæ linguæ Dictiones vndique decerpas, in Adversaria quæ-
 dam mea retulisses, operæ pretium mihi facturus videbar, si eas sparsim ac temerè notatas, nec ab vilo,
 quod scirem, apud nos Lexicographo ante observatas, ad Alphabeticam seriem digereres, & digestas no-
 vis subinde accessionibus interferres, augerem: futurum hoc tandem qualecunque supplementum, multò
 quam erat locupletius, vel superfluis emissurus, vel moriens posteris traditurus. Neque enim dispuduit, in
 ea professione religiose exercenda, in qua (vt senex ille Cibus olim scripsit) *ἡ σφαιρὰ ὀφθαλμῶν*, & quæ vna om-
 nium anxietatis & curarum plenissima est, ad hæc minutias, aliquoties colligendi mei causa, descendisse.
 Nam, præterquam quod eò, affectu quodam animi, nec invita (vt dicitur) *Μινerva* ferebar, præiisse mihi
 & præluxisse in hoc ingenuo otiandi genere (vt *Hadrianum lunium* insignem Medicum, aliosque exteros
 taceam) inter nostros, *Thomam Lynacrum*, *Thomam Eliotam*, clarissimum equestris ordinis virum, &
Thomam Cooperum, omnes medendi peritos, acceperam. Fere enim sit, vt qui ex *Asclepiadarum* familia
 floruerunt, iidem hæc etiam studia feliciter excoluerint. Illud verò institutum meum, cum primùm inno-
 tesceret, familiariter à nie quidam postularunt, vt quæ haberem in promptu collecta vocabula, ederem.
 Et quanquam diu reluctatus sum, quod nondum opusculum illud satis maturum opinarer; vicit tamen
 tandem & iusta eorum petitio, & imprimis *Iohannis Legati*, apud Cantabrigienfes Typographi, viri sanè
 industrii, efflagitatio. Cum enim inter recentiores apud nos Lexicographos, *Thomas Thomasius* Canta-
 brigienfis, Dictionarium Latino-Anglicum non ita pridem locuples composuisset, idemque summo stu-
 dio illius Typographi, quasi Sparten suam, ornatum præ cæteris & instructum perspicere (vtpote quod
 jam novies, & semper auctius prælo subiceretur,) sedulitati hominis optime de re literaria meriti, Canta-
 brigienfis & ipse deesse nolui; quin, quot quot penes me extarent à Latinis Auctoribus delibatas dicti-
 ones, (eæ autem in aliquot jam millia numero excreverant,) vel ipsas nunc denum, cum in prioribus
 Vocabularijs diu desiderarentur, quasi postliminiò receptas; vel *ἀποκρίσεις* ante cum positæ essent, suis
 auctoribus restitutas; vel pluribus quam præ se ferrent significationibus, ditatas, Cantabrigienfi illi Di-
 ctionario, si minus inferendas, (quod sub prælo jam esset,) attendas tamen à me dimitterem. Hæc Col-
 lectanea mea placuit *Παράλειψιν* nomine indigitare. Quis enim minus licuerit mihi, ab alijs hoc in ge-
 nere derehicta ita appellare, quam Poëta illi (sc. Quinto Calabro. Cæl: Rhodigin:) qui opus quoddam
 suum, in quo quæ ab Homero prætermissa fuerant, exequitur, *Ὁ ὅμιλος Περικλέους* inscripsit? Non, quod
 omnia vel complexus vel complectendo sim; sed, cum ipse per ætatem, annum jam illum agens *climacteri-*
cum, plura, quæ supersunt, persequi posse desperem, vt alijs junioribus, ad reliqua, quæ ipse vel omisi, vel
 nondum legendo attingi, perficienda, animum adderem: tandem vt Lexicon hoc Latino-Anglicum, per-
 fectum, quoad fieri possit, suisque numeris absolutum exeat. Habes (amice Lector,) & consilij mei, & titu-
 li, minime (vii spero) invidiosi rationem. Tu verò, quæ es humanitate, hoc quicquid est vel Appendicis,
 si placet, vel supplementi, boni consule, & fiuere. Vale. *Coventriæ. 17. Calendas Februarij. 1614.*

AD SECUNDAS CVRAS, PARALIPOMENON PRÆFATIO LECTORI BENEVOLO.

*C*um Elapsis jam ferme à Paralipomenon meorum ad Thome Thomasi Lexicon Latino-Anglicum editione sedecim annis, nemo haec sciam, extiterit, qui que superessent, ut sperabam, persequutus sit, ageretque mecum serid Iohannes Legatus, I. F. Londinensis Typographus, ut eadem Paralip. quæ Pater Lexico illi attexuerat deinde recenserem, & si qua apud me haberem alia vocabula ipsi excudenda traderem, nolui honesto ejus studio deesse.

En igitur eadem illa Paralipomena, non attexenda ut prius, sed ad Alphabeti rationem suo quoque in loco, jam à me digesta nunc demum inferenda: Edagne sexcentis & supra vocabulis alijs Auctarij nomine comitata; appositis bona fide suis Authoribus. Hijs etiam accedunt (si hoc tanti sit) Verliculi aliquot, ex Ioannis de Ianua Fratrìs, viri ut illa secula ferebant eruditi & de re Literaria optimè meriti, Catholico: ex Medulla item Grammaticæ, alijsque illius Notæ Authoribus: quotquot videlicet Lumen aliquod Literature adferre, & nitorem seu elegantiam conciliare videbantur.

Hoc totum quicquid est, Paralipomena Paralipomenon visum est appellare: titulo scilicet qui latius patere, & ad alia quæ superventura sunt accomodari jure poterit. Quod si, Deus summus ille Rerum Dominus & Moderator, longiore me Lucis huius usura dignari voluerit, (quod haud scio an mihi optari fas sit, homini seni adeo provectâ etate & affectâ, annum sc. agentis nonum supra septuagesimum,) non despero quin & ipse intra pauculos annos, ex hoc immenso Latinitatis oceano pluribus etiamnum Dictionibus hoc opusculum aucturus sim, ita ut non futurum sit (absit verbo invidia) Lexicon hoc in genere, ut Horatij, verbis utar, Ditiùs alterum. Hec idem si boni consulas (Lector candide) satis superque habuero. Atque Hæc, Laconicè meo jam more dicta sunt. Tu vero Vale jam & vive

TYPOGRAPHVS LECTORI.

*S*I quid in hac decimâ tertiâ Dictionarij Thomasi editione præstare sim conatus, quærat à me ingenuus & honesti laboris æquus æstimator; intelligat me omnino in hoc opere duo esse secutum: nempe ut quæ jam erant, ea integriora, atque emendatiora exirent: & quæ desiderari videbantur, explerentur. Primum enim quoniam abesse etiamnum multa vocabula constabat, ejus lacunas ut pro virili replerem, feci ut omnia verba, quæ commodè in tantillo temporis spacio ex Iuriconsultorum, Medicorum, Mathematicorumque selectissimorum commentarijs erui possent, in hunc nostrum intexerentur. Quinetiam hoc non contentus, curavi univèrsùm oppusculum ad incudem quodammodo revocandum. Quâ novâ diligentia, multa sunt castigata, non pauca in meliorem ordinem redacta, ingens verò vocabulorum, phrasum & significationum, farrago adiecta. Præterea (quod in prioribus editionibus desideratum est, & à nonnullis, ut res valde necessaria, efflagitatum) adiunximus varium vocabulorum usum ex Oratorum, Poetarum, Historicorumque scriptis observatum. Quare ubicunque repereris hanc notam adscriptam, ibi scito vel significationem, vel usum dictionis nonnihil discrepare ab eo, quod proximè superius præcesserat. Ad distinctionem etiam earum vocum quæ unius forsan literulæ, aut quantitatis alicuius syllabicæ discrepantiâ, inter se differre videbis, verliculos apposuimus elegantes quidem, memoriæque adjuvandæ jucundissimos. Ac, ne quippiam quod communi utilitati inseruire videatur, in hoc opusculo desideraretur, apposui etiam Tractatum de Ponderibus, Mensuris, Monetisque veteribus accuratissimè descriptum. Insuper autem effeci, ut huic operi adjicerentur non solum dictiones Græcæ Latinis aptè respondentes, sed primitiva etiam omnia totius Græcæ linguæ vocabula, ex quibus tanquam radicibus dictiones quælibet oriuntur ac derivantur. Novissimè verò, quod plus adiu-

menti

menti bonarum literarum studiosis afferrem, novum *Supplementum*, ab eruditissimo viro *D. D. Hollando*, longo tempore & magno studio elaboratum, adjiciendum: immò non adjiciendum modò (vt in editione priori factum est) sed labore planè novo, immiscendum vbique & reliquo operi intexendum, curavi; singulis scil. Supplementi vocabulis, suo, in dictionario majori Alphabeto, assignatis. Cui etiam in calce subiunxi *Dictionary Anglo-Latinum*, à doctissimo quodam perpolitum, & permultis elegantissimarum locutionum, in vtraque lingua, formulis & flosculis refertum. Atque hæc propria mearum lucubrationum: alia porò omnia communiter cum prioribus. Nam ea vocabula, quibus authorum nomina non appinguntur, Ciceroniana sunt omnia, & si quod fortè occurrat huius stellulæ* notâ insignitum, illud aut est à recentioribus scriptoribus vsurpatum, aut, tanquam exposita in sylvis proles, parentes suos ignorat. Singularum autem syllabarum, si quando in generales canones non inciderint, quantitates exactius vsitatis notulis depinguntur. Postremò, quæ verba Latini scriptores à Græcis mutuuntur, ea etiam apposuimus, atque à cæteris distinximus. Quæ omnia æstimatori æquo cognoscenda atque fructu da relinquo.
